

# THE AIM IS TO INCREASE INTERACTION AND COOPERATION

*New multifunctional offices were opened in numerous localities. We strengthened our customer cooperation with a successful pilot event. The Tax Administration is continuously evolving – and we will need new experts in the future, too.*

## **MODERN MULTIFUNCTIONAL PREMISES AND FLEXIBLE PRACTICES**

The nationwide office and working environment concept yokes together the operational requirements for office space. The concept concretises solutions for the rational use of space, so that they are in line with our strategic objectives and employer promise.

As we overhaul our offices, we are transferring to modern multifunctional environments.

The aim is to increase interaction and cooperation.

A new working environment solution was launched in 2017 in Järvenpää, Helsinki (phase 4 of Vallila), Lappeenranta and Savonlinna.

## **DANCE WITH THE BANKER, CHARM THE TAX INSPECTOR**

The Vallila office of the Tax Administration and OP Bank organised a lunchtime disco for their employees. The event – which they dubbed “Dance with the Banker, Charm the Tax Inspector” – put employees into a festive mood in the middle of the day. With broad smiles all around, both organisations received plenty of positive feedback – so much, in fact, that there are plans to turn the disco into an annual tradition.

## **WORK FOR THE TAX ADMINISTRATION**

The Tax Administration offers jobs to experts in various areas of taxation. Taxation is a continuously evolving field and we need new, skilled employees. Come and join us!
